Education

Rashtriya Raksha University, Gandhinagar

2024 – 2028

B.Tech in Computer Science & Engineering

CGPA: 8.17

Experience

Infosys Springboard – Virtual Learning Internship

2025

Software Engineering / Full-Stack Track

Remote

- Completed a virtual learning internship via Infosys Springboard, earning multiple completion certificates across full-stack software engineering modules.
- Strengthened problem-solving, software design, and industry-aligned coding practices through guided coursework and technical assessments.

Technical Skills

- **Languages:** C, C++, Java, Python, JavaScript
- **Web Development:** HTML, CSS, React.js (Vite), Node.js, Express.js, Tailwind CSS
- **Backend & Databases:** Flask, MongoDB, SQL, SQLAlchemy, REST APIs, JWT Authentication
- **Cybersecurity & Systems:** Linux, Networking Fundamentals, Secure Coding Practices
- **Tools & Platforms:** Git, GitHub, VS Code, Postman
- **Concepts:** OOP, Data Structures & Algorithms, API Integration

Projects

MEDTrust – AI-Assisted Healthcare Platform

[GitHub](#)

- Designed and built a multi-stakeholder healthcare platform prototype spanning 50+ pages, with dedicated Patient, Doctor, and NGO portals for accessible healthcare delivery.
- Implemented core feature modules including prescription decoding, anonymous symptom reporting, health camp discovery, government scheme simplification, verified medical updates, and an AI-assisted voice support concept.

Khety – Smart Agriculture Marketplace

[Live](#) / [GitHub](#)

- Built a full-stack agriculture marketplace with role-based access (Farmer / Buyer / Admin), connecting farmers with fertilizer suppliers, seed vendors, and cold storage owners.
- Developed an AI-assisted Fertilizer Authenticity Checker (rule-based + CNN-based image verification) and a Soil/Crop Image Analysis module for disease detection and remedy suggestions.
- Added voice navigation support in 14+ languages and an advisory system for government schemes and weather alerts.

SkillBridge – AI Resume Analyzer

[GitHub](#)

- Built a full-stack resume analysis platform with a Flask REST API backend and a React + Vite frontend, featuring JWT authentication, analysis history, and personalized course recommendations.
- Integrated the Claude API for AI-driven resume evaluation against role-specific skills and keywords, with an automatic fallback to keyword-based scoring; used SQLAlchemy for data modeling.
- Tested REST API endpoints using Postman across authentication, analysis, and history routes to verify reliability.

Personal Portfolio Website

[Live](#) / [GitHub](#)

- Designed and developed a responsive personal portfolio (Home, About, Skills, Projects, Contact) using HTML, CSS, and JavaScript, featuring a Formsprees-powered contact form and deployed via GitHub Pages.

Coding Profiles & Achievements

- **LeetCode:** Solved 71 problems (20 Easy, 34 Medium, 17 Hard) across DSA and competitive programming – [Shruti_rai](#)
- **TryHackMe:** Ranked in the top 5% globally; completed 82 rooms with a 46-day streak and 4 badges earned, practicing ethical hacking and cybersecurity fundamentals – [shruti.r8524](#)
- Vice President and Treasurer, Qalavant (college drama club), Rashtriya Raksha University
- Earned multiple completion certificates through the Infosys Springboard Virtual Learning Internship in Software Engineering (2025)
